

RAKESH PRAJAPATI

Python Developer

Ahmedabad, Gujarat | +91-9327761902 | rkp97840036@gmail.com | LinkedIn | GitHub

SUMMARY

Python Developer with hands-on experience building backend systems using Django, Flask, and REST APIs, along with relational database design in MySQL and SQLite, and practical exposure to data extraction and parsing. Comfortable working across the full stack, integrating server-side logic with front-end components (HTML5, CSS3, JavaScript), and collaborating with cross-functional teams to deliver testable, maintainable code. Comfortable making and consuming HTTP requests, parsing structured and unstructured content, and building reliable, well-tested Python scripts. Currently a Python Intern at Code Vibe Innovation, delivered projects including Baby Sitter Club, AI Resume Analyzer, and Expense Tracker, and available to join immediately as a full-time Python Developer.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frameworks: Django, Flask, Django REST Framework, Bootstrap

Web Scraping & Data Extraction: Requests, BeautifulSoup, Selenium (in progress)

Front-End: HTML5, CSS3, JavaScript

Databases: MySQL, SQLite, PostgreSQL (working knowledge)

Tools: Git, GitHub, Render, n8n, VS Code

Concepts: REST API Design, CRUD Operations, OOP, Authentication, Debugging & Optimization

EXPERIENCE

Python Intern | *Code Vibe Innovation, Ahmedabad*

Apr 2026 – Present

- Develop and maintain back-end components and REST APIs using Python and Django, improving application responsiveness and performance.
- Design database schemas and implement CRUD operations and authentication systems following coding standards and documentation practices.
- Debug and troubleshoot existing applications, collaborating with team members to resolve issues and improve project outcomes.

Web Development Intern | *Technicra, Ahmedabad*

May 2025 – Jun 2025

- Built Django applications with CRUD functionality and SQL integration, writing reusable and testable code.
- Used Git and GitHub for version control and collaborated with the team throughout the development lifecycle.

PROJECTS

Baby Sitter Club Management System | *Django, Bootstrap, SQLite*

- Developed a web-based babysitting management platform with authentication, booking, and profile management.
- Implemented CRUD operations and server-side logic using Django, Bootstrap, and SQLite.

AI Resume Analyzer | *Flask, SQLite, Gemini API, n8n*

- Built an AI-powered resume analysis system with ATS scoring and automated email notifications via n8n.
- Integrated the Gemini API and designed the database schema for resume upload, report generation, and dashboards.

Expense Tracker Website | *Django, Bootstrap, SQLite*

- Developed an expense tracking system with authentication, and income/expense/category management.
- Built CRUD operations and a reporting dashboard using Django and SQLite.

EDUCATION

Bachelor of Computer Applications (BCA Honors) — Shreyarth University, Ahmedabad, Gujarat

Expected May 2026

CERTIFICATIONS

- IBM SkillsBuild AI Strategy & Business Intelligence Internship (2026)
- Tata GenAI Powered Data Analytics Job Simulation
- Technicra Web Development with Python Django
